CUSTOMER SUPPORT KNOWLEDGE BASE

Sample Help Center Guide | Fictional Company: NovaCart Online Store

Purpose: This fictional support guide is intended for testing a document-based customer support chatbot. Use the information below as its source of truth; if a situation is not covered, the bot should suggest contacting a support agent.

1. Orders and Order Tracking

Order confirmation: After an order is placed successfully, NovaCart sends an order confirmation email containing the order number and purchase summary. If no email arrives within 30 minutes, check the spam folder and confirm the email address used at checkout.

Track an order: Customers can open **My Account** → **Orders**, select the order, and choose **Track Shipment**. Tracking information may take up to 24 hours after dispatch to become available.

Order processing: Most in-stock orders are processed within 1–2 business days. Processing may take longer during promotions, holidays, or unexpected inventory delays. A processing order cannot always be changed or cancelled.

Change or cancel: Contact support as soon as possible with the order number. Changes and cancellations are only possible before the order is packed or shipped. Once shipped, customers may need to use the return process.

2. Shipping and Delivery

Standard delivery: Estimated delivery is 3–7 business days after dispatch for most domestic destinations. Remote areas may require additional time. The estimate is not a guarantee.

Express delivery: Where available, express shipping is estimated at 1–3 business days after dispatch. The option and fee appear at checkout.

Delayed package: If tracking has not updated for 48 hours, or the delivery estimate has passed, customers should contact support with the order number. The support team will check with the courier.

Marked delivered but not received: Check the delivery location, building reception, household members, and courier proof of delivery. If the package is still missing, report it to support within 48 hours of the delivery scan.

3. Returns and Refunds

Return window: Eligible unused items may be returned within 14 calendar days after delivery, in original condition and packaging. Some products, including personalized items, perishable goods, and hygiene-sensitive products with opened seals, may be non-returnable unless damaged or incorrect.

Start a return: Visit **My Account** → **Orders** → **Return Item** and select a reason. If the online option is unavailable, contact support with the order number and item details. Return approval and instructions will be provided.

Refund timing: After the returned item is received and inspected, approved refunds are initiated within 5–7 business days. The bank or payment provider may require additional time to post the credit.

CUSTOMER SUPPORT KNOWLEDGE BASE

4. Payments, Discounts, and Billing

Accepted payments: Available payment methods are displayed at checkout and may include credit/debit cards, online banking, and supported digital wallets. Cash on delivery may be offered only for eligible locations and orders.

Payment failed: Check that payment details are correct and that the bank has not blocked the transaction. If money was debited but the order was not confirmed, wait up to 24 hours for the status to update. If it remains unresolved, contact support with the transaction reference; do not share passwords, PINs, or OTPs.

Duplicate charge: If two charges appear for one order, provide the order number and both transaction references. Support will investigate. A pending authorization may disappear automatically according to the bank's timeline.

Discount code: Enter the code in the promo-code field before payment. Codes may have expiry dates, minimum purchase requirements, product exclusions, or one-use limits. Discounts generally cannot be applied after an order is placed unless support confirms an exception.

5. Product Issues and Account Help

Damaged or incorrect item: Contact support within 48 hours of delivery. Include the order number, a brief description, and clear photos of the item and packaging. Support will review replacement or refund options.

Missing item: Check the packing slip and order details first. If an item is missing, report it within 48 hours of delivery and include the order number and missing product name.

Account access: Use **Forgot Password** on the sign-in page to receive a password reset link. If the email does not arrive, check spam and confirm the registered email. Never send a password or one-time code to support.

Update contact details: Customers can update their phone number or email from **My Account** → **Profile**. Changes to an order's delivery address may be restricted after processing begins.

6. Support Contact and Escalation

Support hours: Monday–Friday, 9:00 a.m.–6:00 p.m. (local business time), excluding public holidays. Messages received outside these hours are handled on the next business day.

What to include: Order number (if applicable), account email, issue summary, and relevant screenshots or photos. Never provide full card numbers, passwords, PINs, or OTPs.

Escalation: Escalate unresolved delivery issues, suspected duplicate charges, repeated payment failures, and damaged/incorrect orders to a human support agent. Do not promise a refund, replacement, or delivery date unless the policy or an authorized agent confirms it.

7. Frequently Asked Questions

Question	Answer from this guide
When will tracking become available?	It can take up to 24 hours after dispatch.
How long does standard delivery take?	About 3–7 business days after dispatch; estimates can vary.
When can I return an item?	Eligible unused items within 14 calendar days after delivery.
How long does an approved refund take?	Initiation within 5–7 business days after receipt and inspection; bank posting may take longer.
What if payment was debited but order failed?	Wait up to 24 hours, then contact support with the transaction reference.
